Combat Covid 19 and Normal Colds “Where People Meet”.

Plymoth VBF-OFFICE HEPA H14 professional Airpurifiers are used indoors for reducing Corona- and other Virus in the air. The cleaned air is blown out upwards in 30 degree angle, in 4 directions, to reach far into a room. Suitable for placing in the middle of a room or against a wall. 3 Flow Stops are included to make it possible to decide which directions shall be open. Over 99.995% filtration efficiency.

It is recommended to filter the total air volume in a room 6 times/hour or more. The VBF-OFFICE/700 model is for rooms up to 50m²/2.5m high and the VBF-OFFICE/1000 model for rooms up to 70m²/2.5m high. After a short while the Virus and Bacteria in the air is reduced with 98-99%.

You also reduce the spread of normal colds and get less dust in the air which reduces cleaning costs.

The VBF-OFFICE models are designed with 4-stage filtration:

1. **Inlet Prefilter** at the bottom for larger particles. Washable Aluminum mesh.
2. **Prefilter G4**. Makes the HEPA H14 filter last longer.
3. **HEPA H14 filter**. VBF-700/8m² and VBF-1000/13m². **With Certificate and Leak test**.
4. **Outlet Filter** in the upper part. Made of washable Aluminum mesh.

For your Safety each HEPA H14 filter is delivered with a **Certificate and is leak tested**. The efficiency is over 99.995% on particles and Virus which are down to 0.1 micrometer. The Filters are manufactured in Europe by a HEPA H14 specialist, well known all over the world.

All VBF Airpurifiers are designed with 1-phase, 220V EC motors. Just plug it in. You can adjust the air volume to levels where you hardly hear it.

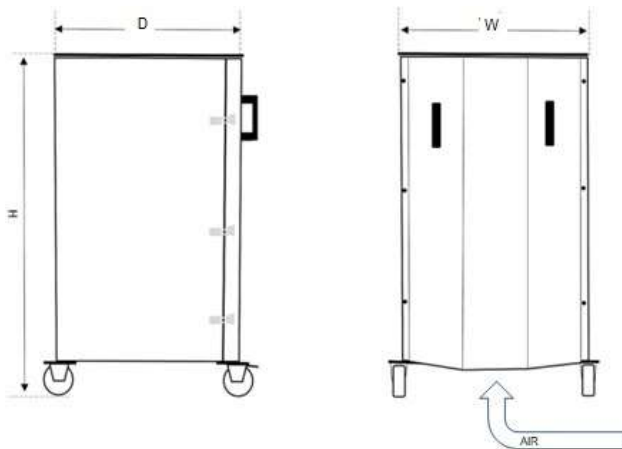

ORIGINAL[®] Plymoth

An investment in a Plymoth Airpurifier is often paid back in less than a year. You get less Sick-leave and lower cleaning costs.

The Plymoth VBF-OFFICE Airpurifiers are designed in a very robust way and of highest quality materials. They are delivered with 4x125mm castors with brakes. Legs 125mm high can be ordered separately.

The door of all VBF filters is locked with 2 bolts to avoid that it is opened by mistake.
